

## CHUGACH NATIONAL FOREST

### SCHEDULE OF NEPA PROPOSED ACTIONS

April 1, 2002

#### SUPERVISOR'S OFFICE

**Project: Forest Plan Revision.**

**Location:** Chugach National Forest, southcentral Alaska.

**Description:** The Forest is revising its Land Management Plan. The original Plan was completed in 1984. Changes to environmental, social, or legal conditions will be integrated into the revised Plan.

**Scoping Status:** Formal scoping commenced with the publication of the Notice of Intent in the Federal Register on April 21, 1997 (Volume 62, Number 76). Preliminary revision issues were identified in the first edition of the Revision newsletter. Public workshops were conducted throughout southcentral Alaska in November and December 1997. Over 1,000 letters, containing over 3,000 comments, were received during the scoping period. Analysis of those comments was used to identify the significant issues. The significant issues have been described as 'situation statements' and 'Public/Agency Interests'. The Situation Statements involve public interests, which may be mutually exclusive, with a range of possible ways for resolution. A summary of public interest and situation statements was sent out to participants on the revision mailing list. Management Area Prescriptions were developed in response to the situation/interest statements. Collaborative Learning workshops were conducted in March 1999, to seek input from the public for formulating draft alternatives. The prescriptions were applied to various areas around the Forest to develop a range of alternatives. The Forest Service Interdisciplinary Team created eight draft alternatives. Groups and individuals representative of the public submitted twenty-two alternatives. On December 19, 1999, the Chugach National Forest Supervisor Dave Gibbons approved a range of six alternatives, A through F, along with the existing "No Action" Alternative to be analyzed in detail. From this range of alternatives, a single preferred alternative was derived. The draft preferred alternative map was completed, and posted May 2000 on the Chugach Forest Revision Website ([www.fs.fed.us/r10/chugach/revision/](http://www.fs.fed.us/r10/chugach/revision/)). The draft EIS and revised Forest Plan were posted on the Revision Website in August 2000 and available for public review through mid-December 2000.

**Analysis Status:** The Draft Forest Plan and Draft Environmental Impact Statement were released for public comment, and posted in the Federal Register on September 15, 2000, with the comment period running through December 14, 2000. Over 30,000 cards and letters were received during the comment period. Reports on the analysis of public comments are posted on the Chugach Web Site.

**Decision Date:** The Record of Decision for the Revised Forest Plan and the Final Environmental Impact Statement are scheduled for completion this summer. The Regional Forester is the Responsible Official for this Revision of the Forest Plan.

**Contact Person:** Chuck Frey, Forest Supervisor's Office, (907)-743-9557.
